

The Luv

Tuskluv is a specialty creative shop obsessed with good ideas. Sure we have the cutting-edge visual design capabilities in both print and interactive to bring our concepts to life as well as the developers to ensure that our websites, rich media, and viral games perform phenomenally – but our ideas are where we shine. Nothing fuels our energies as much as concepting and pitching multidisciplinary campaigns and strategy for clients as well as prospects. We believe good ideas are the basis of impactful advertising and consistently convert concepts into powerful experiential creative that resonates.

Capabilities

We bring strategic branding and creative expertise to the development of Flash websites, online banner campaigns, rich media, viral games, and print campaigns as well as social networking tools. Our breadth of capabilities is unique and adaptable to a client's brand and desired outcomes, so please contact us for any project inquiries.
